

AXIOM
Resource Management, Inc.

Axiom is an Affirmative Action / Equal Employment Opportunity employer. As an "At Will" employer, Axiom actively establishes and pursues, on a continuing basis, conditions of employment, policies, and practices which do not discriminate against employees or prospective employees because of race, color, religion, gender, national origin, age, marital status, genetic information, disability, protected veteran status, sexual orientation, or gender identity. In addition, it is Axiom's policy to take affirmative action to employ and to advance in employment, all persons regardless of race, color, religion, gender, national origin, age, marital status, genetic information, disability, protected veteran status, sexual orientation, or gender identity, and to base all employment decisions only on valid job requirements.

Axiom has developed an Affirmative Action Program (AAP) Plan to ensure that we are committed to developing, communicating, and implementing recruiting, hiring, and general employment policies and practices which support both Affirmative Action and Equal Employment Opportunity concepts and requirements.

The AAP Plan is available for review upon request. Please contact human resources below to schedule a review of Axiom's AAP Plan:
